

SETTING UP YOUR SIM RIG

In this pack we have a set of branded decals and a 'Training Plate' that we would love you to put on your Sim Rig once you've assembled it (Follow the instructions in the Sim Rig packaging).

DOUBLE SIDED Number Plate and Lanyard

Choose which side you think sums up myDRIVESCHOOL®
To hang the Training Plate, loop the Lanyard through one hole in the plate and run it over through the harness openings in the seat back, then clip it to the opposite hole in the plate.

Getting the road safety message out there

Once you've got everything sorted, we kindly ask that you take some photos of your epic set up to share on your socials and tag us @mydriveschool so we can help get the message out there. The more people that know about the benefits of myDRIVESCHOOL and that #roadsafetymatters, the better for every road user.

WELL PLAYED
